

## Knowlton December Update

This month's prayer highlights a very important need for timely prayer. See number 8.

Praises:

1. Both of us are involved in great small groups at church.
2. The SIM computer team completed a huge and complicated email migration successfully.
3. We had a great time of vacation with Connie's family.
4. Caleb passed all his classes, and got one 'A' in French.

Please Pray:

5. That we will find a renter for our house in Wichita to help pay for college bills and medical expenses. (Connie has been diagnosed with Type II Myotonic Muscular Dystrophy; the long-term prognosis is not clear).
6. Caleb begins his final semester of college on January 8. Pray for divine guidance and employment. Funding is very tight.
7. That God will have His way in Philip's life, and will speak to his heart. Neither Philip nor his roommate has any interest in spiritual things.
8. The shipment of 10,000 audio Bibles from China to Paraguay worth about \$140,000 arrived safely in port, but is being held. A SIM missionary there writes, "This is a crucial time for prayer and could save the project 10s of thousands of dollars if the state actually believes us when we tell them we are donating these Bibles. There is so much corruption here that it is difficult for folks to believe that SIM would actually just do something for free because we love the Lord." **Pray that this shipment will be released without payment of taxes.**
9. Pray for God to lead clearly concerning a possible group of youth coming here this summer.
